Society for Industrial and Applied Mathematics

The Society for Industrial and Applied Mathematics (SIAM) is an international community of over 13,000 individual members and almost 500 institutional members. The goals are:

- To advance the [application of mathematics and computational science](#) to engineering, industry, science, and society.
- To [promote research](#) that will lead to effective new mathematical and computational methods and techniques for science, engineering, industry, and society.
- To [provide media for the exchange of information](#) and ideas among mathematicians, engineers, and scientists.

A SIAM student chapter resides at one or more colleges or universities, and ideally involves students and faculty members from different departments.

SIAM chapters in Europe

The [first](#) SIAM student chapter in The Netherlands is installed at TU Delft.

Chapter activities

We are planning a couple of events:

- [Seminars and lectures](#) for and by PhD students.
- Learning-by-doing sessions on software tools [[baNaNa](#) talks].
- Student [Computational Finance Day](#) at TU Delft:
Every year we organize a one day workshop on a topic in applied mathematics. With this event we try to connect with SIAM chapters of other universities. Also, we give PhD students the possibility to present their work for an international audience. The next research day is about computational finance and takes place on May 23, 2016.
- [Company visits](#):
Most of our members are interested to discover the role of mathematicians within companies and math in industrial processes. To stimulate this, the SIAM student chapter organizes company visits. On these trips members of the student chapter can find out more about interesting opportunities to continue their carrier. In the autumn of 2016 we will visit Deltares.
- [Socials events](#) like faculty BBQ, movie-nights, chess tournament ...

Who are we?

The Chapter at TU Delft has been founded in 2014. The current board:

The Chapter is [open for MSc and PhD students](#) as well as for staff members.

Join us!

If you want to join us, please send an email to SIAMSC-EWI@tudelft.nl and state your full name and department.

Theme based on Matt Graham's *Leap Day*.
